

# The Qu'Appelle Progress.

Vol. IX.

QU'APPELLE, N. W. T., THURSDAY, NOVEMBER 2, 1893.

No. 3.

## QU'APPELLE.

R. MOLLAY, Master of Marriage Licenses.  
Qu'Appelle Station, area.

A. HOLLINGHEAD, House, Sign and  
Carriage Painter, Graining, Glazing,  
Paper Hanging and Estimating promptly  
executed.

A. PATTERSON, Real Estate Agent,  
Domestic Farm Lands for Sale. Office  
Qu'Appelle Printing Office.

QU'APPELLE MEAT MARKET. Fresh Meat  
of all kinds kept constantly on hand.  
Lowest prices. W. H. BULL, Proprietor.

D. R. E. CARTHEW, Qu'Appelle, Phys-  
ician, Surgeon, Gravel, etc. Grad-  
uate Toronto University and Licentiate Col-  
lege Physicians and Surgeons, Ont.

G. S. DAVIDSON, Licensed Auctioneer,  
Sales conducted on the shortest notice.  
Arrangements can be made at my Office,  
or at the Postoffice Office, Qu'Appelle.

A. D. DICKSON, Barrister, Advocate,  
Solicitor, etc.  
Office, first door south of the Queen's Hotel,  
Qu'Appelle St.

W. M. SMITH, Advocate, Notary Public,  
Gravel, etc. and Real Estate Agent.  
Office, first door south of the Queen's Hotel,  
Qu'Appelle St.

R. E. SMITH,  
QU'APPELLE STATION.  
SHAVING SALOON.  
Ordered Clothing a Specialty.

IMPROVED  
YORKSHIRE PIGS.  
For Sale a few young BOARS  
and SOWS (certificate of pedigree  
given).  
Also a fine team of HEAVY  
DRAUGHT HORSES, in good con-  
dition.  
Also Two Bradford BINDERS,  
in working order.  
H. F. BOYCE,  
Qu'Appelle Station.

CLEAVER BROS.,  
Veterinary Surgeons,  
OF REGINA, AVE.

Opened an Office in  
Qu'Appelle,  
And may be found there constantly to treat  
all diseases of animals.

A. G. Orchard  
DRUGGIST & STATIONER  
Indian Head.  
Full lines of Drugs, Patent Medi-  
cines and Toilet Articles.  
STATIONERY IN GREAT VARIETY.  
Also a good stock of  
WALL PAPER.  
INSPECTION INVITED.  
Special attention given to Mail  
Orders.

WORLD'S FAIR.  
Quickest route to the  
World's Fair.

Direct and cheapest route to Toronto, Mon-  
treal, New York and all Eastern Cities.  
Kootenay Mining Country, Spokane Falls  
and the

PACIFIC COAST.

## The Qu'Appelle Progress.

Published every Thursday

At The Progress Printing Office, in the

Town of Qu'Appelle, Assiniboia, Canada.

The rates for advertising space by

contract are as follows:

One One Three One

week, month, quarter, year.

One column \$6.00 2 columns \$10.00 3 columns \$12.00

Four columns \$14.00 5 columns \$16.00 6 columns \$18.00

7 columns \$20.00 8 columns \$22.00 9 columns \$24.00

10 columns \$26.00 11 columns \$28.00 12 columns \$30.00

Business card, \$1.00 per month payable

monthly.

The above rates do not apply to auction

sales, entertainments, lectures, meetings,

legal notices, or anything of a transitory

nature. Transient advertisements, 10 cents

per line first insertion, 5 cents per line each

additional insertion. Yearly advertisement

allowed to be changed monthly, if notice

of change will be given for each additional

change.

Business notices, 50 cents for first twenty

words, 2 cents for each additional word.

The publisher reserves the right to refuse

to insert advertisements of a questionable

or objectionable character.

Subscription price, \$1.00 per annum, in

advance; single copies 5 cents.

A liberal commission will be allowed to

agents who are willing to act as agents for

the paper.

THE PROGRESS PRINTING CO.,

Qu'Appelle, Assn.

A. C. PATTERSON, Manager.

THURSDAY, NOV. 2, 1893

After several receptions and con-

ferences, the Cabinet Ministers

left to interview the settlers of

the North-West, have taken their

departure. The mission which they

had in hand is accomplished and

they will now have acquired

sufficient information upon which

to form an opinion with regard to

a re-adjustment of the present tariff.

We have been told some reductions

will be effected, we are pleased to

hear this and wish the attempt to

lighten our burdens and relieve us

from undue pressure in the matter

of taxation will be satisfactory and

extend just so far as the condition

of the Dominion will warrant. We

would, however, point out that this

is no new scheme, no fresh policy

inaugurated amid the clap-trap of

the politician and echoed by the

upplauding demagogue, intended by

Ministers simply as an electioneer-

ing expedient; it is instead the sensible

and statesmanlike development of

the old National Policy originated

by our late distinguished Premier

the Right Honourable Sir John A.

Macdonald, and continued by his

predecessors, a policy based upon our

needs and resources, capable of

limitless expansion and which

must long remain the glory of our

country and the chief cause of our

prosperity as a nation. These are

the lines upon which Canada must

continue to tread, ever and again

making her footing still more secure

and thereby enhancing the worth

of her soil, and the general good of

our increasing millions of people.

We trust the visit of the Minister

has been a pleasant one, and we

feel sure they will carry away with

them a kindly opinion of the Ter-

ritories, appreciative of its nat-

ural beauties, and sympathetic with

its requirements. No doubt their

previous views of the North-West

will have undergone some modifica-

tions, and having seen us through the

clearer atmosphere by which we are

surrounded, having viewed us on our

own ground, it is surely possible

they may have struck them that

we as a people are by no means

a negligible quantity in the future

prosperity of the Dominion. We

do not desire to embarrass those in

authority who are striving to pro-

mote the general good and it is not

our intention to ask what is un-

reasonable or chimerical but we

expect and demand that the National

Policy shall be, whenever possible,

so developed and extended as to

produce its fullest benefits and its

largest measure of advantage.

Canada has lost another of her

most distinguished sons in the death

of Sir John Abbott, which took

place at Montreal after a lingering

illness. During the short time he

was premier he directed the affairs

of the Dominion in a most satis-

factory and able manner, but his

indifferent health made his retire-

ment into private life compulsory.

His knowledge of politics was pro-

found, and the valuable services he

has rendered the Conservative

party have been most highly appre-

ciated. Both in public and private

life honesty of purpose characterized

his every action, and a very large

number of people will lose a sincere

friend and adviser.

## THE MAYOR OF CHICAGO

SHOT AND KILLED.

Chicago was thrown into a state

of mingled sorrow and horror by

the rash act of a crazy crank, who

shot Carter Harrison, the mayor of

Chicago, in his own residence at

231 South Ashland Avenue, about

8 o'clock on Saturday evening.

The mayor died in a little over an

## AMONG THE INDIANS OVER

THIRTY YEARS AGO.

The lecture delivered on Monday

evening last in the Methodist

Church by the Rev. John Mc-

Dougall, president of the Manitoba

and North-West Conference, was

one which gave those present an

idea of the hardships and privations

the missionaries to the Indians had

to undergo and the many dangers

they encountered whilst spreading

the gospel in the early days.

The Rev. E. T. Carter presided

## Town & Country Callings.

—Hallowe'en has passed without the usual removal of signs, etc.

—As we go to press the induction of the Rev. Mr. Sargent as incumbent of St. Peter's is taking place.

—His Lordship Bishop Burn preached on Sunday last, morning and evening, in St. Peter's Cathedral.

—The Rev. Mr. Sargent, Mrs. Sargent and Miss Woodward have left Fort Qu'Appelle and come into town to reside.

—Mr. W. W. McMillan was in town on Friday night. He said in all probability Mr. James Buckham would be here again shortly.

—Several young people from town were present at a dance which took place in Mr. Hall's house, south of here, on Thursday night.

—There were large congregations on Sunday last at the re-opening services in the Methodist Church. The Rev. John McDougall preached two excellent sermons.

—Mr. Thomas A. McGarvey, of London, Ont., a son-in-law of Mr. and Mrs. Charles Miles, was killed in the railway accident on Battle Creek, Michigan, on the 20th ult.

—Mr. C. Rabbit, watchmaker, has had a portion of Mr. Bulger's store partitioned off, which makes a comfortable little room, where he will carry on his business of wheel fixing.

—Frank Davis, a bell boy at the Manitoba Hotel, Winnipeg, fell down the freight elevator, a distance of fifty feet, on Saturday night, alighting on his stomach on the cross box of the elevator. He was not killed.

—Skating is a pastime now freely indulged in by the youth of our town. The ice is good on the reservoirs, and the fine nights have been taken full advantage of by those whose daily work does not provide sufficient exercise.

—Mr. A. McKenzie is busy despatching a cargo of apples which recently arrived from Ontario. They are of the best, and he is quickly disposing of them at \$5.50 for the single barrel or \$5.25 for five or ten barrel lots.

—A sale of young thoroughbred Durham, Polled Angus and Hereford bulls and heifers, and English sows and Berkshire pigs will be held on the Experimental Farm, Indian Head, on Wednesday, 22nd November. Sale to commence at 1 o'clock p.m.

—Mr. James Scott and Mr. and Mrs. R. S. Smith, of Fort Qu'Appelle, returned from Chicago on Monday morning. Miss Scott stayed off at Winnipeg to visit friends in that locality. They are well pleased with their visit, and much struck with the wonderful sights of the World's Fair.

—The curling rink is undergoing considerable alterations and improvement. The floor has been lowered about a foot, more light is to be admitted, the two anti-rooms thrown into one, and the building put into shape for playing the popular game under the most favorable conditions. Alongside the curling rink is to be a skating rink 160 feet long by 50 feet wide, enclosed by a fence seven feet high. The entrance will be through the curling rink. When completed the two favorite winter pastimes will doubtless be much enjoyed and the resort well patronized by our citizens.

—A sad affair occurred at Regina on Monday last, which resulted in the death of an aged man named Whitman, belonging to Balgonie. From particulars to hand, it appears that Whitman was employed as a laborer in Regina, and was working at the Court House. A young man named McDonald, delivery wagon driver for the Western Milling Co., went up to him when he was about to leave his work and some words passed between them respecting some matter, which evidently culminated in a quarrel, for McDonald struck Whitman with a spade on the head and rendered him insensible. He never regained consciousness and died about three hours afterwards. McDonald was arrested.

—We regret to announce the death of Col. John Hall Thompson, which took place at the residence of his son, Mr. W. T. Thompson, D.L.S., Qu'Appelle, on Friday last. The deceased gentleman caught a chill whilst out driving, which confined him to the house, and, although at one time it was thought that he would rally, he gradually grew worse and passed away on the day above named. He was in the eighty-fourth year of his age, and was unusually active for one so old. Though he lived a retired life at Qu'Appelle he was very generally respected by everyone. The funeral took place on Monday afternoon, the Bishop conducting the service and a large number of residents attended the last sad rites.

—A shooting match for a number of turkeys and ducks took place on Mr. A. Gray's homestead on Tuesday last. In the evening there was a dance, which drew a large crowd, and was voted a decided success.

—The second contingent of delegates from Great Britain, who passed through here accompanied by Mr. E. P. Leacock, got back to Winnipeg on Saturday morning after having been as far west as Nanaimo, B.C. Like the others, they are delighted with what they have seen in Manitoba, the Territories and British Columbia.

—Mr. Wm. Henderson, who contemplates leaving shortly for Toronto, was recently presented by the Freemasons of Regina with an address and a past master's jewel. The ceremony was performed in the Masonic Hall, and after the presentation dinner was served, the remainder of the evening being devoted to songs and speeches.

—The alteration in the times of arrival of the expresses was manifested here on Sunday, when enquirers ascertained that the train from the east would not arrive till early the following morning. No. 1 (west bound) is due here at 2.33 and No. 2 (east bound) at 1.23, so that our daylight trains are again a thing of the past.

—Sara Lord Bailey, elocutionist and dramatic reader, of Boston, will give an entertainment in the Town Hall on Tuesday next. She comes with first-rate credentials, and is said to be one of the first elocutionists on the American platform. The entertainment is to be given under the auspices of the Foresters, and the talented lady should have a good audience.

—John Slater, Bill Slater, Joseph Bruce and Charles Foster appeared before Mr. Hartley Gibson, J.P., on Monday last, charged at the instance of S. C. Fyfe with shooting on Sunday contrary to the provisions of the Lord's Day Ordinance. The case against Charles Foster was dismissed, as he pleaded on oath actual want. The two Slaters and Bruce pleaded guilty, and were each fined 25 cents and costs.

—There was an unusual ripple of excitement among the pupils of the Public School here during the latter part of last week, and on Saturday night it culminated in a reception and presentation to Mr. McConnell, on the eve of his birthday, by the school's scholars. A short but clever programme had been prepared for the occasion, after the reading of which, refreshments were handed round. When all had been satisfied and order called, Mr. McConnell was asked to come forward, and the following address was read and presented to him by Albert Gordon, together with a beautiful picture lamp:—"To Mr. D. S. McConnell, master of the Qu'Appelle Public School.—The scholars under your tutelage change request your acceptance of the following lamp as a small token of their appreciation of your very valuable work amongst us, and of the painstaking manner in which you discharge your important duties, which is manifest by the reports of the Inspectors, and by results at the various examinations. At the same time we desire to express to you our sincere wishes that you may be spared to enjoy very many happy returns of your birthday, which we are met to-night to celebrate. Signed on behalf of all the scholars, CLARA BRYDON, OSCAR EDWARDS." Mr. McConnell replied in suitable terms, after which the young folks amused themselves with games, etc., for a time, and the singing of the National Anthem was the conclusion of a most enjoyable evening.

### GRENFELL

October 26th.

A furious and destructive prairie fire did a tremendous amount of damage to property south of Grenfell on Saturday last. The wind was very high and carried the fire over all the fire-guards. Several settlers lost their all, house and granary, stables, grain, hay, among whom is Mr. T. S. Taylor. Others more fortunate saved their dwellings but lost everything else, of whom Mr. W. Turner and Mr. R. Snider are the greatest sufferers, with Mr. P. S. Sherlock, whose cattle and horses stampeded and have not been heard of yet. It is estimated that over 2,000 tons of hay were burnt, the principal losers being Messrs. T. Hoxtal, 100 tons; A. J. Wilkinson, 75 tons; F. and A. Dash, J. Boston and many others.

## THE NORTH-WEST AT THE WORLD'S FAIR.

Canadian Pavilion, World's Fair, Chicago, October 26.—Last week's letter dealt with the North West agricultural and horticultural exhibits. In the mining building, looking somewhat dwarfed beside the pretentious display from the eastern provinces, is an interesting collection sent by the North-West Government, and which includes building stone from Red Deer, Indian Head and Calgary; white brick from Regina, Calgary and Melfort; red brick clay from Red Deer and Eastern Assiniboia; fine building sand and pottery clay, natural tar and sand from Athabasca river; petroleum from Oil Creek, Alberta; coal from Christie and Willock's mines, Alberta; an immense block of bituminous coal from Lethbridge; blocks of Anthracite from the McNeill mines at Anthracite and Cammore; lignite from Edmonton, Estevan, Red Deer and Hazzard's. Large cards in bold type informing the visitor that "One of the most important features of the Canadian North-West is the unlimited supply of good coal."

The general mining exhibit from the Dominion compares favorably with anything in the building. There is no finer exhibit of mica, and the asbestos exhibit from Quebec is unexcelled in curiosity and interest. Other notable features are iron ore from Drummondville, Quebec; copper ore from the same province; a fine trophy of phosphate from Buckingham; gold and silver ore and mercury, and an immense pyramid of gold brick representing the volume of gold derived from the Placer Mines of British Columbia since 1852.

In the Woman's Building, a large ornamental structure lately devoted to fancy work, I discovered a fine piece of marble statuary representing a sportsman with his dogs, "zeceute," so the inscription informed me, "par Madame la Duchesse d'Uzes, pour l'Eglise St. Hubert, Assiniboia, Canada."

During a round of the stock pavilion, I found the show of cattle and horses all over, and the animals taken home. Sheep and swine were there, however, in great force. A two-year-old sow was shown me which weighed 710 lb. A sow in another pen was labelled 829 lbs, and was too fat to stand. Many of the sheep were in the same unimpaired condition. One breed of sheep, the Dorset Horn, shown by a breeder from Uxbridge, Ont., possess the peculiarity of yielding two crops of lambs annually. Some of the ewes had lambed during the Fair. The Dorset Horns are hardy and vigorous. The horns are a novelty, growing as they do on both rams and ewes. The horns are useful, because they render the animals dog-proof. Southdowns, Shropshires, Cheviots, Merinos, Hampshire Downs and other breeds are largely represented. A rough glance over the sheep prize list showed that while Americans had 443 animals in the various classes, against our 310, the awards showed Canada 61 firsts, against United States 47; Canada 47 seconds, against U.S. 44; Canada 46 thirds, against U.S. 44; Canada 35 fourths, against U.S. 17. The money value of the sheep prizes won by Canada is \$6,800, which added to the \$5,600 won for cattle and horses, makes a total of \$12,400. The total amount offered by the World's Fair and Live Stock Associations foots up to about \$10,000, so that Canada has already captured about half of it, with a good chance of getting more yet. Two horses from Calgary, Alberta, shown by Mr. Turner, were awarded, respectively, a second and a fourth prize, and according to good judges they deserved even better than that.

About all that remains of the Canadian dairy exhibit is the big cheese, weighing eleven tons. It plays to a full house every day. The stairway leading up to it is so badly worn as to be almost unsafe. The big cheese was made from the milk of 10,000 cows, milked by 1666 dairymaids, the milk weighing over 100 tons, or 24,370 gallons. It has been purchased by Lipton, the great English provision dealer.

The educational exhibit of Canada is unsurpassed by any in the liberal arts building. A great celebrity from Europe said the Ontario educational exhibit was a perfect model of what such an exhibit should be. The North-West section, while necessarily small compared with some others, is one on which the Council of Public Instruction is to be congratulated. It is a representative exhibit and contains some excellent work. The schools represented by samples of examination papers in arithmetic, algebra, grammar, history, English and other subjects are: Regina, St. Albert, Indian Head, Moosomin, Wide Awake, Moose Jaw, Lacombe, Prince Albert, St. Joachim, White Wood, Walsley, Calgary. Extremely neat and creditable samples of kindergarten work from the Regina school are shown, while around the court are photos of prairie scenes and principal buildings in some of

the North-West towns, and maps drawn by pupils, among the maps being two, the work of Maud Smith and Winnifred Benson, of Regina, which are exceptionally fine. One of the most notable exhibits here is a relief map done by pupils of Moose Jaw school. The best drawing in the exhibit is a pencil picture of a young lady, executed by Miss Estella Hamilton, of Moosomin school. A novelty in the way of a composition is one on "The life of a grey goose," by pupils of Moose Jaw school. There are also included in the exhibit a number of exercise books, nicely illuminated in neat designs by the pupils of various schools, and an interesting collection of dried plants from the College, Prince Albert. The North-West educational exhibit has been pronounced by hundreds of visitors to be most creditable, and coming from so young a country, one of the most remarkable at the World's Fair.

In the handsome court devoted to Canada in the Manufactures Building, which contains 44 acres of floor space, is found the very interesting exhibit of the Indian Department. Here may be seen among other articles exhibits showing the wonderful skill and intelligence which under wise training the Indians of the North-West have attained. A complete torso, filled with curios, skins, mats, etc., also ropes, beads, stuffed birds and animals, domestic hides tanned by Indians, model of industrial school buildings in the North-West, iron harrows, oil paintings and paintings on velvet, wood work of various descriptions and a printing office in full operation.

Some other exhibits from the North-West are a collection of native woods in the forestry building and a very good collection of fish in the Fisheries Building.

As was stated in my first letter, there is not the least doubt that Canada in general, and the North-West particularly, will derive greater benefit from the World's Fair than any other country in the world outside of the United States, and considering all drawbacks—not the least of which were the difficulty of securing exhibits and the meagre amount of money available (though thanks to the efforts of Senator Peley last January this was largely supplemented by the Dominion Government), there is plenty of scope for ground congratulations to the North-West Executive for its energy in collecting the exhibits, and to Senator Peley for his work in organizing, arranging and displaying the prairie products so successfully. Good fruit, too, is certain to follow the work of the Senator and his assistants in the shape of interviews with people interested in immigration, and those seeking information about western Canada. Thousands of young men, and older men with families, have been thoroughly posted by word of mouth on the various resources and advantages of the Territories, a fact which means that the dense ignorance of the Yankees on Canadian matters will be largely dispelled, and that the North-West will secure a large amount of immigration from various parts of the States. If the N.W. Commissioner had had more assistants no doubt still more could have been accomplished.

It would not do to close this letter without mentioning that some faithful missionary work is to be credited to Mr. Hamilton Lang, editor of the Moose Jaw Times, who has devoted a considerable portion of his pleasure trip to ably assisting the officials and sounding the praises of the North-West.

J. J. YOUNG.

### THE DEATH OF SIR JOHN ABBOTT.

MONTREAL, Oct. 30.—Sir John Abbott, ex-premier of Canada, died at 9 o'clock this evening. He had been in poor health for some months. His advanced age, being over 70, and poor health forced him to resign the premiership, and he took a trip to Europe with the hope of gaining some of his old-time vigor. He was absent for over three months, but the trip did not do him any material benefit, and he returned home in a very enfeebled condition. Dr. Rodlick and other prominent medical men who were called in, after consultation, decided that the patient was suffering from a species of cancer of the bowels and that an operation was imperative. This was performed a few weeks ago, but though it afforded relief it brought about no permanent cure, and Sir John gradually grew weaker day by day until death ended his sufferings this evening. His end was peaceful, and he was surrounded in his last moments by all the members of his family. The funeral will take place here next Thursday afternoon, and the remains will be interred in Mount Royal cemetery.

### ROSE VALLEY.

The plows are still running and a little threshing remains to be done yet. Considerable wheat is being moved to the elevators.

Geese are basking themselves to the sunny south for the winter.

The ripple of excitement caused by the Wide Awake wedding scarcely reached here.

The fiend of mischief has been prowling around our neighborhood lately, and even on Sunday evenings cannot refrain from that old trick of removing wheels from rigs and hiding them.

Potatoes and oats promise to be a good price this year.

Mr. Sam Hastings has gone into the meat business, and finds a ready sale for all his product.

The syndicate thrasher has finished outside work, and now only a few jobs of company work remain to be completed.

Mr. Klinek has greatly improved the appearance of his dwelling by willowing and plastering the entire outside.

### IMPOUNDED.

IMPOUNDED on Oct. 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1893. The horse and cart right here, also top of right horse, also top of right horse.

**WANTED.**  
A GOOD SMART BOY, who can attend to horse, cow and do other chores around the house. Can find employment for the winter months. Apply to G. S. DAVIDSON.

### LOST.
